Office Action Summary	Application No. 10/607,964	Applicant(s) GREEN, CHRISTOPHER PHILLIP	
	Examiner Gary E. Elkins	Art Unit 3782	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group I, Figs. 1, 3 and 5 in the reply filed on 17 July 2007 is acknowledged. Claims 9-13 and 36-39 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. In view of the apparent allowability of claim 31 below, the requirement is withdrawn with respect to claims 36-39.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-4, 8, 14, 21 and 22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Price in view of Pedrini. Price discloses a rack capable of supporting a lightweight motorcycle or moped and including a main body formed by telescoping members 17, 19, 21, support assemblies at the ends of the main body member mounting the main body member to a pickup truck bed and a wheel chock assembly 26 having a fixing member 23 mounted on the main body member. Price does not disclose a holding means attached to the connecting member for holding the wheel. Pedrini teaches that it is known to make wheel chocks (5, 6) with holding means 12 mounted to the chocks and attached to connection member via the chock. It would have been obvious make the chocks in Price with holding means as taught by Pedrini to prevent movement of the wheels relative to the chocks during transport.

Art Unit: 3782

4. Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over the prior art as applied to claim 1 above, and further in view of Romero. Modified Price does not evidence a side member with a clamp to fixedly attach the side member to a vertical wall of the bed.

Romero teaches that it is known to make a truck bed carrier with side members 10 and clamps 12 to mount the support members to the vertical walls of the truck bed. It would have been obvious to substitute clamp attaching elements for the bracket support elements of Price as taught by Romero to allow fixing the carrier to the side vertical support walls of the bed.

Allowable Subject Matter

5. Claims 6, 7 and 15-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claims 23-45 are allowed.

Conclusion

The remaining cited prior art is illustrative of the general state of the art.
